 1.0 DAY COURSE

"Learn to become part of the solution."

The PD Training Creative Problem Solving training course in New Zealand will provide participants with a complete and practical understanding of the steps involved to analyse, discover and solve problems in the workplace.

This course teaches the use of the many tools and techniques that resolve problems smoothly, quickly and efficiently. Along with the resolution, it also concentrates on the identification and removal of the root cause of a problem. Attend a Creative Problem Solving Training class today, or have one of our professional trainers come to your workplace in Auckland, Christchurch and Wellington.

Please click on the Public Class tab below to view our Creative Problem Solving Training course schedule by city or click the In-House Training tab to receive a free quote for courses delivered at your preferred location.

What You'll Gain:

In the past few decades, psychologists and business people alike have discovered that successful problem solvers tend to use the same type of process to identify and implement the solutions to their problems. This process works for any kind of problem, large or small, in any organisation in New Zealand.

This Creative Problem Solving workshop will give participants an overview of the entire creative problem solving process, as well as key problem solving tools that they can use every day. Creativity can be learned and fostered as a professional skill, and can provide individual inspiration as well as being a useful team building tool.

Outcomes

In this course participants will:

- Understand the complete process of creatively solving a problem.
- Learn some key questions to ask when gathering information about a problem
- Take home tools to effectively determine what 'the problem is'
- Learn to write concrete problem statements
- Discover idea-generating tools like affinity diagrams, word chaining, the box method, the Looking through a different Lens & the blink method
- Learn to evaluate potential solutions against specific criteria like a cost/benefit analysis or group voting
- Learn to perform a final problem analysis and then select a solution
- Understand the why's & how's of refining & re-refining a solution shortlist
- Learn how to identify the tasks & resources necessary to implement a solution
- Understand how to evaluate & adapt solutions to reality

Modules
