**COURSE LENGTH: 2.0 DAYS**

The PD Training Leadership Training course provides those currently in leadership positions, or those new to a leadership role, with the insight, awareness and techniques to lead more effectively. Great leaders set the pace for their team and have an impact on organisational culture and staff morale through their actions.

In this dynamic, 2-day professional development program, you'll learn crucial skills like creating and communicating a vision, using appropriate body language, giving formal and informal feedback, using the art of persuasion, creative problem solving and decision making, encouraging personal and professional growth and much more.

This dynamic training course is available now throughout New Zealand, including Auckland, Christchurch or Wellington.

# LEADERSHIP TRAINING COURSE OUTLINE

---

## FOREWORD

The PD Training Leadership Development Training Program has been highly praised by our business clients as the essential skills required to be a talented leader are presented in a format that is both informative and empowering at the same time.

Through patience, persistence and hard work, anyone can become a highly effective leader. The responsibility is on you to implement the strategies taught in this course and to identify and correct changes in certain behaviours which may be quite difficult. The skills required to be a great team player are not always the same skills required to effectively lead the team. This is why Executive Leadership Development is so highly sought after by most successful companies.

The primary role of a leader also requires a thorough understanding of the team's needs, aspirations and concerns, so it is important to have excellent listening and facilitation skills as well as highly developed abilities to coach and mentor others. This Leadership and Influencing Skills Training Program will teach you that effective leadership starts with a thorough understanding of oneself, which then allows you to support and lead others towards stated organisational goals.

---
