 0.5 DAY COURSE

Transform the way you communicate and collaborate with Microsoft 365 Copilot in Outlook and Teams in this practical, instructor-led online course. Designed for busy professionals and teams, this course shows you how to use AI to manage your inbox, write better emails, run more effective meetings, and stay organised with minimal effort.

Discover how Copilot in Outlook helps you summarise long email threads, draft responses, schedule meetings, and manage your day more efficiently. In Teams, learn how to generate meeting summaries, action lists, and recaps - even if you missed the call. You'll also explore prompt writing techniques and real-world scenarios to maximise productivity using natural language.

By the end of this course, you'll be empowered to reclaim your time, reduce digital fatigue, and communicate with greater clarity and impact.

These courses are facilitated in English, and are open to people from different industries in all countries especially across Australia, New Zealand, Singapore, Malaysia and Hong Kong - this is a short but powerful learning experience that gives you global collaboration opportunities. Our trainers and processes have been refined to give you a personalised learning experience.

****Please note, these classes run to a very tight schedule, please follow the invitation and join the class 10-minutes prior to commencement so you are ready to participate and don't miss a minute!**
