Access 2013
Advanced Training

COURSE LENGTH: 1.0 DAYS

Microsoft Access 2013 is the latest software that introduces web apps to Access. Now, you can easily build an Access web app and share it with others as a SharePoint app in a web browser. This advanced training course in Access 2013 provides expert knowledge and skills in customising apps, using advanced field tasks, working with Expression Builder, creating queries, handling data, creating forms and reports, and more. This highly valuable and dynamic course is now available throughout New Zealand, including Auckland, Wellington and Christchurch.

MICROSOFT ACCESS 2013 ADVANCED TRAINING COURSE OUTLINE

FOREWORD

During this course, participants will develop skills in using the advanced features of Microsoft Access 2013, including using app view tools, customising apps, working with advanced Field tasks, working with external data, creating queries, and creating forms and reports.
