MICROSOFT ONENOTE 2013 ESSENTIALS COURSE OUTLINE

FOREWORD

In this OneNote 2013 Essentials course, participants will discover the benefits of taking, storing, and sharing notes electronically without losing the benefits of handwritten notes. This course will teach features to improve your note-taking, whether it be for meeting notes, remembering important information, or for research purposes. Powerful features to assist in keeping related information in one place, such as adding audio, video, files, links and handwritten notes, will be taught in this one-day workshop.

OneNote 2013 allows you to track appointments, take meeting notes, record research, and keep to-do items all in one place. With Office 2013 you are provided a new landing screen which makes launching and creating documents easier than previous versions of OneNote. OneNote 2013 also has an improved user interface with an array of powerful tools to help you manage your data through Skydrive – and better information leads to better decision making!

OUTCOMES

In this course, participants will

- Discover ways to increase the quality of their notes with exciting and powerful note-taking features
- Learn all of the basics of creating and working with Notebooks that are required to get up and running taking Notes
- Become an expert at adding, re-arranging, and deleting pages and sections
- Learn different ways to add and format text, including typing and handwriting options
- Gain the ability to store all related information in one place by inserting audio, video, links, and attached files
- Increase productivity by quickly finding information with tagged notes
- Gain knowledge of how to add sketches to notes with drawing options and related formatting capabilities
- Discover advanced techniques, such as time-stamping, password-protecting and backing up notes

MODULES

Lesson 1: The Basics

Getting Started
