COURSE LENGTH: 1.0 DAYS

Search Engine Optimisation (SEO) requires you to have an understanding of how to create content which can easily be indexed by search engines. The process includes identifying and using preferred keywords to increase your search engine ranking. It is a marketing tool used by businesses to improve visibility on search engine results pages (SERP's) and when done properly will have an effect on your rankings.

The PD Training SEO Training Course gives you a better understanding of concepts like on-page versus off-page SEO, how to optimise images and videos, best practices for content creation and essential files you must have on your site. Further topics covered include Google page rank, researching meta titles, descriptions and keywords, back linking (what to do and what NOT to do), Search Engine Marketing (SEM), outsourcing and much more.

This SEO class by PD Training, takes the "voodoo" out of SEO by offering practical tools and a methodical approach to improving your online presence.

This enlightening SEO training course is available now throughout New Zealand, including Auckland, Wellington and Christchurch.

SEO TRAINING COURSE OUTLINE

FOREWORD

Search Engine Optimisation is a recent addition to the advertising and marketing sector key strategies. This course helps you understand that it is not all technical voodoo and wizardry, but that it requires simple clear planning and sound web development and clear communication techniques.

Don't be misled by the companies selling you false services and promises, come and learn the principles and techniques you can implement for your website yourself – and achieve the results on your own websites.
