HIGHLY EFFECTIVE MANAGEMENT COURSE OUTLINE

FOREWORD

Traditionally, middle managers make up the largest managerial layer in an organisation. Middle managers are responsible to those above them and those below them. They head a variety of departments and projects. In order for a company to operate smoothly, it is essential that those in management be committed to the goals of the organisation and understand how to effectively execute these goals.

All managers need a framework in which to operate. Managers need to know the most effective techniques for guiding teams, mentoring individuals, and validating the results. Without solid methods, managers will revert back to using a one-size-fits-all approach to management that may impact on employee morale, productivity and retention.

This Highly Effective Management Training Course will focus on management challenges and offer managers opportunities to develop key skills that can be put into practice on a daily basis.
