1.0 DAY COURSE

A business' ethics ensures that employees will understand the goals and expectations in an organisation. Ethics determine the "rules of the road" for a particular entity, so it's imperative to communicate the ethics staff should follow in a way that makes sense at all organisational levels.

The PD Training Business Ethics Training Course teaches how to implement ethical management, goal setting, organisation, and identification and managing of responsibilities. This course provides you with the knowledge and skill building techniques that allows the successful building and management of a business ethics platform.

This engaging business ethics training course is available now in New Zealand, including Auckland, Wellington and Christchurch.

## What You'll Gain:

Every day key decisions are made about how resources are used and consumed in the enterprise. The ethical imperative is to ensure that resources are used in the most appropriate way within the context of the organisation and the broader context of the organisation in the community.

Ethics should maintain a positive effect on the employees surroundings, creating an atmosphere of decision making that fosters help and not harm. This course will pose a series of questions that will form the basis of a practical ethical framework.

## Outcomes

In this course participants will:

- Understand what 'business ethics' is
- Learn how to make ethical decisions
- Receive practical tools to implement ethics in the workplace
- Understand employee rights to enable and create privacy, harassment & technology policies
- Understand your business & social responsibilities

- Learn how to balance personal and organisation ethics
- Learn when to "blow the whistle"
- Be able to identify unethical behaviours

---
