REQUEST QUOTE

0.5 DAY COURSE

Knowledge is better grasped and retained if the training is activity-based, interactive and fun. Training delivered in such a way interests, engages and allows trainee participation, which allows complete involvement in the learning process.

The PD Training How To Deliver Fun, Activity Based Training provides trainers with specific knowledge, tools and techniques to make training highly effective. Learn key skills like using humour, include time-tested learning principles, choosing appropriate activities, conducting post-course analysis, preparing for a training session and more.

This highly valuable and effective training course is now available across New Zealand including Auckland, Christchurch or Wellington.

What You'll Gain:

During this course, participants learn the techniques to deliver fun, activity-based training including how to include humour and games, developing original activities, learning troubleshooting and using personal creativity.

How To Deliver Fun, Activity-based Training Course is a short training course designed to develop a comprehensive understanding of the kind of humour and activity suitable for a classroom, and how games can help in engaging participants.

Outcomes

This intensive and fun course is the fastest way to develop a deep understanding and skills in delivering fun, activity-based training that enhances its outcomes.
After completing this course, participants will have learned to:
