- Details and theory, provided clearly with supporting imagery

What You'll Gain:

Scrum Product Owner Certified (SPOC™) certification exam is designed to confirm applicants practical and working knowledge of Scrum that equips them to handle the business aspects and stakeholders in an Agile Scrum environment.

Product Owner represents the interests of the stakeholders in the Scrum Team. Commonly called 'the voice of the customer', the Product Owner is responsible for ensuring clear communication of product or service functionality requirements. The Agile Scrum Product Owner also prioritises the requirements from the point of view of an end user, for maximum business benefit, defines the Acceptance Criteria, and ensuring those criteria are met.

Outcomes

In this course you will:

- Be familiar with the concepts, advantages, and challenges of the Scrum methodology.

- Be adept in handling the business aspects of the Scrum framework and stakeholder engagement.
- Be equipped with the knowledge needed to play the role of a Product Owner in their organisations and help their organisations adopt the Scrum methodology. This knowledge will include a functional understanding of the other roles in Agile Scrum.
- Have knowledge pertaining to and the ability to anticipate issues related to the practical implementation of Scrum.
